Military Publications  
INDEX OF ADMINISTRATIVE PUBLICATIONS

1. General. This list of current administrative publications is provided to facilitate the maintenance of an up-to-date file on such directives within staff elements, this Headquarters, and subordinate commands. Complete files of all of these publications are neither required, nor authorized for all units of this Command (USAINSCOM Supplement 1 to AR 310-2, paragraphs 4-31 and 4-13c).
2. Classification. Publications classified TOP SECRET, SECRET, or CONFIDENTIAL are identified by the symbols "(TS)," "(S)," or "(C)," respectively, preceding the publication number. The symbol "(O)" denotes a directive which is FOR OFFICIAL USE ONLY. Publications containing special handling markings are indicated by the special handling symbol being shown immediately following the classification symbol. The title of such a publication, if unclassified, is followed by (U).
3. Distribution. The capital letter designation in the distribution column (DIST) shows the level of standard distribution (e.g., A, B, C, etc.) to which the publication was distributed. (See USAINSCOM Supplement 1 to AR 310-2 for distribution formulas). The letter "S" is shown for certain publications to indicate that a "special formula-type" distribution was made.
4. Publications under revision. The code "(n)" following the distribution designator indicates that the publication is under revision. Resupply copies are not maintained and will not be requisitioned (see para 6).
5. Proponent. The office symbol of the staff element having primary responsibility for the publication is shown in the proponent column (PROP) (e.g., IAIM, IALOG, IAPER, etc.).
6. Requests for publications. Requests for publications listed in this index, for which a definite requirement exists, will be submitted on DA Form 17 (Requisition for Publications and Blank Forms) to this Headquarters, ATTN: IAIM-SA-AP, on an as-required basis. Separate requisitions will be submitted for classified publications. DA Form 17 will be completed in duplicate. Requisitions will not be submitted for the sole purpose of obtaining a copy of all publications listed. DA publications and NSA publications are not stocked at this Headquarters; therefore, they will be requisitioned directly from the issuing command.
7. Requests for other instructional material. Requests for lesson plans, student handouts, programs of instruction, and practical exercises related thereto, should be addressed to: Commander, US Army Intelligence School, Ft Devens, MA 01433. Requests will be sufficiently specific to permit the accurate evaluation of requirements. Blanket requests, such as "all lesson plans and supporting material used within a program of instruction," will not be filled.
